Gold Watches of all sizes and kinds, all warranted to give entire satisfaction. My stock of Watches is the largest in the city. I have now reduced the prices on them until they are the cheapest also. Don't want to carry them over Christmas.

P. J. MURPHY.

Catlettsburg will in all probability make a fight against Ashland's being selected as the place of holding the United States Court in case Congressman Pugh's proposed bill to divide the state into two Federal Districts receives favorable consideration. Already plans to that effect are being consummated. And here stands old Maysville—paying more than twice as much revenue to Uncle Sam as Ashland and Catlettsburg combined!

Y. M. C. A. NOTES.

Something of Interest to the Young Men of Maysville.

The committee having in charge the Sunday Men's Rally first intended to have tomorrow's service at the new rooms, with a special program of music and speaking, but inasmuch as the furnishings of the new parlors are not complete they have decided to postpone the original program one week, and instead of meeting in the association rooms the committee has accepted an invitation from the Pastor and officials of the Methodist Episcopal Church, South, to meet in their auditorium at the usual hour—3 o'clock. An address of special interest to the men will be given by Dr. Leftwich, and it is expected that the singing will be led by a chorus of young men. The men of the city are cordially invited to attend this service. The brief prayer-meeting announced last Sunday to be held tomorrow at 8:45 a. m. will also be postponed to the second Sunday in this month.

The members of the Woman's Committee of the Y. M. C. A. are meeting with splendid success in their efforts to secure funds from the ladies of the city to be used toward the furnishing of the new association rooms. At the meeting held yesterday—the first regular monthly meeting held under the new rules adopted last month when the committee was organized—the canvassers reported \$18.85 more in collections, making a total of \$153.25 to date, and there are yet some to be seen. This money will be wisely used in the renting of a piano, the purchase of a carpet for reception room, furniture for parlor, also shades, towels, &c., and the cleaning of the rooms. The Rooms Committee is very busy attending to the above-named duties, and on Monday afternoon, when it meets again, at 2:30 o'clock, it is expected that most of its work will be arranged.

Now that the Association has moved into its new quarters it will be interesting to review very briefly the good work accomplished in the old Y. M. C. A. Hall at the Cox Building, which was opened for use with reading matter, games, etc., the first of September. The daily average visits during the three months of occupancy were 50, and the record of the Sunday meeting shows an encouraging increase as follows: September, average 57; October, 61; November, 75. Many strangers from other cities and towns visited the hall during this short period. Visits to sick men 20. Directors and committees met on 27 different occasions, and the Woman's Committee and sub-committees held 7 meetings. Three letters of introduction were given to young men leaving the city. One lecture was held in the Opera house, with an attendance of 170. Nearly 100 have signed thus far as members, and this will be largely increased within the next few weeks.

REMOVED THE OBSTRUCTION.

And the Bright Workman "Removed" the Machine Also.

Bourbon county recently purchased several rock crushers for work on her free turpikes.

Other day one of the wheels was stopped by an obstruction.

A bright workman undertook to remove the aforesaid obstruction with dynamite.

It is unnecessary to say that the scheme was a howling success.

The obstruction was removed.

And the fragments of the machine have most all been gathered up and sent to Lexington, where a lot of doctors are engaged in trying to find where the pieces fit.

Sousa's Contemplated Visit.

Of course, everybody will go to Sousa's concerts. Sousa is real.—Sousa is genuine and his fame is not built on quicksands. Sousa is an American. He was born within sight of our great National Capitol, his life has been spent in America, and his great life work is being accomplished in this country. America is his home, and Sousa is proud of his country, as America is proud of Sousa.

Not many years have passed since Sousa made his debut, and still there is not a hamlet in the far distant corners of the United States that does not know of his success.

His visit to this city on his great transcontinental tour will be hailed with delight. In addition to his magnificent band he will introduce two charming artists—Mrs. Elizabeth Northrop, soprano, and Miss Martina Johnstone, the Swedish violinist.

The Sousa airs fell on the ears of the Chinese Army in their retreat from the flying column of the Emperor of Japan, and so it is in whatever clime one visits. Sousa, is indeed, incalculable.

A good way to utilize old stockings and other knitted goods is to rip out the wool, which makes a splendid elastic stuffing for cushions, pillows, &c.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
